metaio
Selim BenHimane

ST-Ericsson   (STE)
Bernard Puel

e-Diam Sistemas (e-Diam)
Javier Campos

Sony Mobile (Sony)
Klas Hermodsson
Günter Alce

Institut National de Recherche en Informatique et en Automatique (INRIA)
Jacques Lemordant

4. Logistic Information

Advice

You can use http://www.mvv-muenchen.de/en/homepage/index.html to find the optimal way from your hotel to insideAR or to metaio offices.

How to reach the meeting place and insideAR event beforehand

*insideAR* will take place at the following address:

EISBACH STUDIOS
Berduxstr. 30
81245 Munich

You need to reach the München Pasing train station. If you are e.g. at Münchner Freiheit Subway station you need to first go to Marienplatz using the subway U6 (subways station are marked with a blue U sign). Then, you need to take the subway/train S8 or S4 until the station Pasing.

At Pasing, you can walk to the EISBACH studio (from A to B according to the picture below).

The Venturi meeting will take place at metaio offices:

metaio GmbH
Infanteriestr. 19
House 4b
D-80797 Munich

If you are again at Münchner Freiheit, the best is to take the Bus 53 from Münchner Freiheit bus station and stop at the station Infanteriestraße. You will stop at the blue point below and you need to follow the red line to come to metaio. At Infanteriestr. 19, there are many buildings of many companies. metaio is at the Hause 4b.
